

Huktra is committed to **the effective management of energy**, as a corporate resource, with the express intention of contributing to the conservation of the natural environment through the reduction of overall energy consumption.

In support of this policy, Huktra will take steps by means of co-ordination, management, training, publicity, education and where appropriate incentives, to encourage and **motivate staff in becoming involved in energy consumption**.

Huktra will, at all times ensure the Health, Safety and Welfare considerations of persons at work and believes that the Energy Management Policy does not exert influence on these statements.
